EDUCATION

Ecole Supérieure de Technologie (EST)   Fkih Ben Saleh, Morocco
DUT Informatique Décisionnelle et Statistiques (University Diploma of Technology in Computer Science – Decision Support & Statistics,
2-year degree, equivalent to an Associate's degree)   **Nov 2021 - June 2025**
Lycée Qualifiant ASSAFA   Agadir, Morocco
Baccalauréat in Physical Sciences   **Sep 2020 - June 2021**

SKILLS SUMMARY

- **Languages**:   Python, SQL, C, C++, JavaScript
- **Frameworks**:   Tailwind CSS, React.js, Next.js, Node.js, Express.js, Mongoose
- **Tools**:   Power BI, PowerPoint, Tableau, MySQL, MongoDB, Word, Git
- **Platforms**:   Jupyter Notebook, Visual Studio Code, GitHub, Jira Software, Postman
- **Soft Skills**:   Documentation, Strong Stakeholder management, People Management, Excellent communication

---

WORK EXPERIENCE

Front End Developer (Next.js) | Vala-Orange | LINK   **Jun 25 – Aug 2025**
- Developed responsive and interactive web interfaces using **Next.js**.
- Collaborated with design and back-end teams to integrate APIs and improve user experience.
- Optimized front-end performance, implemented routing and state management, and ensured code quality through best practices.

Full Stack Developer (React / Node) | Souss Massa Tech Academy | LINK   **Dec 24 – May 2025**
- Gained hands-on experience in full-stack web development, starting from **HTML, CSS, and JavaScript** to building applications with the **MERN stack (MongoDB, Express.js, React, Node.js)**.
- Developed and deployed interactive web applications using React for front-end and Node.js/Express for back-end, practicing real-world development workflows.
- Learned industry best practices in code organization, version control with **Git**, and collaborative development through project-based learning.

PROJECTS

Personal Portfolio Using Next.js & Aceternity UI | LINK   **July 25 - Sep 2025**
- Built a fully responsive personal portfolio website using Next.js and Acternity UI, and animated with Framer Motion, showcasing projects, skills, and professional achievements.
- Implemented interactive UI components, smooth navigation, and optimized performance for both desktop and mobile devices.

Capital Tracker – Full-stack AI-powered finance platform | LINK   **Sept 23 - Febr 2024**
- Developed a full-stack AI-powered finance platform using **Next.js 15, React 19, Prisma, Tailwind CSS, Shadcn UI, and Clerk.js** for authentication.
- Integrated **Google Generative AI (Gemini)** for smart financial insights, budgeting recommendations, and receipt analysis.
- Enabled users to manage personal finances efficiently through features like receipt scanning, budgeting tools, and AI-driven analytics.

CERTIFICATES

Software Developer Bootcamp (GOMYCODE) | CERTIFICATE   **May 2025**
- Gained hands-on experience in full-stack development using the MERN stack (MongoDB, Express.js, React, Node.js) to build dynamic and scalable web applications.
- Applied best practices in software engineering to design, develop, and deploy end-to-end projects, strengthening both front-end and back-end development skills.

Python Programmer Bootcamp (365 Data Science) | CERTIFICATE   **Nov 2024**
- Developed strong foundations in Python programming, including data types, variables, operators, conditionals, loops, functions, and object-oriented programming.
- Applied problem-solving and coding techniques to write clean, efficient scripts and automate repetitive tasks.

SQL (365 Data Science) | CERTIFICATE   **Nov 2024**
- Gained proficiency in SQL fundamentals, including creating, modifying, and querying relational databases using SELECT, WHERE, JOIN, GROUP BY, and aggregate functions.
- Applied SQL techniques to extract, filter, and organize complex datasets, supporting accurate reporting and data-driven insights.
