## EDUCATION

**Ecole Supérieure de Technologie (EST)**                              Fkih Ben Saleh, Morocco
DUT Informatique Décisionnelle et Statistiques (University Diploma of Technology in Computer Science – Decision Support & Statistics,
2-year degree, equivalent to an Associate's degree)                    **Nov 2021 - June 2025**
**Lycée Qualifiant ASSAFA**                                            Agadir, Morocco
Baccalauréat in Physical Sciences                                      **Sep 2020 - June 2021**

---

## SKILLS SUMMARY

- **Languages**:     Python, SQL, C, C++, JavaScript
- **Frameworks**:    Tailwind CSS, React.js, Next.js, Node.js, Express.js, Mongoose
- **Tools**:         Power BI, PowerPoint, Tableau, MySQL, MongoDB, Word, Git
- **Platforms**:     Jupyter Notebook, Visual Studio Code, GitHub, Jira Software, Postman
- **Soft Skills**:   Documentation, Strong Stakeholder management, People Management, Excellent communication

---

## WORK EXPERIENCE

**Front End Developer (Next.js) | Vala-Orange | LINK**                  **Jun 25 – Aug 2025**
- Built and deployed responsive, interactive web interfaces using **Next.js**, enhancing user engagement across devices.
- Partnered with design and back-end teams to integrate REST APIs, improving feature delivery speed by 20%.
- Improved performance by implementing optimized routing, state management, and reusable components following best practices.

**Full Stack Developer (React / Node) | Souss Massa Tech Academy | LINK**      **Dec 24 – May 2025**
- Designed and deployed full-stack web applications using the **MERN stack (MongoDB, Express.js, React, Node.js)**.
- Delivered interactive features with React front-end and Node.js/Express back-end, simulating production-level workflows.
- Applied **Git version control** and agile practices for collaborative development across multiple projects.

---

## PROJECTS

**Personal Portfolio Using Next.js & Aceternity UI | LINK**            **July 25 - Sep 2025**
- Developed a personal portfolio site with **Next.js**, **Aceternity UI**, and **Framer Motion**, highlighting projects and skills.
- Optimized for cross-device performance and implemented smooth navigation with reusable UI components.

**Capital Tracker – Full-stack AI-powered finance platform | LINK**    **May 25 - Aug 2024**
- Built a full-stack AI-powered finance platform using **Next.js 15, React 19, Prisma, Tailwind CSS, Shadcn UI, and Clerk.js** for authentication.
- Integrated **Google Generative AI (Gemini)** to provide smart budgeting, receipt analysis, and financial insights.
- Enabled users to manage personal finances with features like receipt scanning, budget dashboards, and AI-driven analytics.

---

## CERTIFICATES

**Software Developer Bootcamp (GOMYCODE) | CERTIFICATE**                **May 2025**
- Completed intensive training in full-stack development with the **MERN stack**, building dynamic, scalable applications.

**Python Programmer Bootcamp (365 Data Science) | CERTIFICATE**        **Nov 2024**
- Mastered Python fundamentals, including OOP, automation, and efficient scripting for problem-solving.

**SQL (365 Data Science) | CERTIFICATE**                               **Nov 2024**
- Acquired proficiency in SQL for relational databases, using **JOINs, GROUP BY, and aggregate functions** to generate insights.
